NOBLE BOATWRIGHT DRINKS POISON WHILE BEING LED BY THE POLICE TO THE PATROL

**Was Drinking and Quarreled
With His Sweetheart, Who
Caused His Arrest For Driv-
ing Her From Her Home—
Dies Before Doctor Can Be
Reached**

Dependent from drink and quarrels with his sweetheart, Noble Boatwright, a cooper, killed himself last evening between 7 and 8 o'clock by drinking carbolic acid. He was under arrest when he drank the poison, but patrolmen did not realize his purpose in time to save him. The patrol wagon was summoned and the young man hurried down for medical treatment, but he expired in the patrol wagon before the physicians were reached.

Boatwright had been keeping company with Mrs. Mattie Dickery of 914 Caldwell street, and yesterday while intoxicated he went to her house several times and quarreled with her. Patrolman Henry Singery was summoned and each time expelled the young man from the neighborhood at the request of the woman. Last evening shortly after 6 o'clock Boatwright reappeared and took possession of the woman's house. She went next door and telephoned for the police.

Patrolmen John McCune and Jake Rouse went to the house. They found Boatwright in possession. Placing him under arrest, they started for Backer's grocery, Ninth and Caldwell streets, to await the patrol wagon. While going through the yard Patrolman McCune observed Boatwright take something from his pocket and place it to his lips. When McCune reached his side, Boatwright held a small bottle, which the patrolman knocked from his hand. It was marked "carbolic acid," and when the grocery was reached the young man toppled over and lay on the ground, muttering unintelligibly.

He was placed in the patrol, and at Fourth and Broadway, Dr. Horace T. Rivers made an examination and found life extinct. The body was sent by Coroner Frank Eaker to the Mattie-Efinger morgue.

Noble Boatwright was born in Paducah 31 years ago, and followed the trade of cooper. He had been married to a daughter of William South several years ago. He leaves a mother, Mrs. Fannie Boatwright, who resides with her daughter, Mrs. Charles Schmaus, at Lone Oak, three brothers, Messrs. Louis, Frank and John Boatwright, and two sisters, Mrs. Schmaus and another in Sherron, Tenn.

Boatwright is said to have been keeping company with the Dickery woman three years. She is a dressmaker, and has sewed for many families in Paducah. When Boatwright began drinking she expelled him from her house. Only two days before Boatwright swallowed the poison she told him that she was going to leave today for the east to reside with relatives.

Patrolman John McCune in handling the bottle got some of the acid on his hands. He secured lotions to counteract the burns and suffered little. Boatwright stole the acid from the mantle in the Dickery woman's house.

Mrs. Dickery Goes Away.

Today it developed that Boatwright took his own life because Mrs. Dickery was making preparations to leave for Woonsocket, Rhode Island, her brother, Lee Bridges, a well known printer, who formerly worked on Paducah papers, having sent her money to pay her railroad fare to that city. Mrs. Dickery left at noon today for Woonsocket. While talking of the suicide at the station, she said: "Although Boatwright had warned me that if I did not change my mind about going away he would kill himself, I did not believe he meant it. He was not drinking to excess yesterday, but seemed greatly worried and begged me to stay. Finally, he got mad and attacked me. I called the police, and when Mr. Singery came, I asked him to take Boatwright away."

"That was in the afternoon and about 6 o'clock last night he came back and broke in the door. I ran to a neighbor's and called the police. I did not see him take the acid."

Officer Singery and the other police officers say that she begged them not to lock Boatwright up but to keep him away from her house until she could get away from town. Mrs. Dickery has a bright looking little girl about seven years old.

This afternoon at the city hall Coroner Frank Baker is holding an inquest into Boatwright's death.

The coroner's jury brought in a verdict of death by suicide. The funeral is being held this afternoon at the residence of L. J. Farrar, 1124 South Third street. The

WILL POOL ENGINES.

Effective at once, engines on the Fulton, Paducah and Louisville districts of the Illinois Central, freight service, will be "pooled," and in the move the road hopes to save its engineers.

"Pooling" engines is assigning them to engineers in order. "The first in-first out" plan, which has been in force among conductors, will now apply to engineers, who will take out any engine that happens to be ready for service when they are called for their turn, and will not remain with one engine, to go out on it whenever it is ordered out. Engineers have been known to remain on their engines during 200-mile runs in a single day and repeat it the next day. Some engineers have made \$200 and more per month. The new arrangement will cut down engineers' earnings.

JUDGE HUSBANDS WILL BE BURIED FRIDAY AT THREE

The funeral of Hon. Lorenzo Dow Husbands, veteran jurist who died Wednesday afternoon at 3 o'clock of general debility after a lingering illness, will be held Friday afternoon at 3 o'clock at the residence, 935 Jefferson street. The Rev. W. E. Cave will conduct the services. The burial will be in Oak Grove cemetery.

Judge Husbands' fight against death was a remarkable one. For several weeks he lingered in a hopeless condition, rarely gaining consciousness, and twice during his illness he was thought to have died; but stimulants administered by physicians prolonged his life. For the last three days he was kept alive entirely by stimulants.

The Paducah Bar association will meet to pass resolutions of respect and honor.

Following are pallbearers selected to attend the body: Active—A. J. Decker, O. L. Gregory, D. H. Hughes, Muscoe Burnett, J. C. Flournoy, T. L. Crice, R. B. Phillips and J. D. Moequut.

Honorary—W. M. Reed, William Marble, L. M. Riecke, James Campbell, Sr., E. W. Bagby, J. Q. Taylor, James Collins and W. A. Berry.

WARRANT ISSUED AGAINST O'BRIEN WAREHOUSEMAN

Magistrate Charles W. Emery this morning issued a warrant for the arrest of W. S. O'Brien, manager of a storage warehouse on South Third street, charging him with converting 50 bags of Jupiter brand peanuts to his own use. The warrant was issued on an affidavit made by G. B. Wearan, manager of the Scudder-Gale-Wearan company, of Cairo, Ill. Wearan makes affidavit that 100 bags of peanuts were delivered to the warehouse to be held until ordered delivered by the owners, the Cairo firm, of which he is manager; and that 50 bags were shipped. Subsequently an order for delivery of the remaining 50 bags was made, but O'Brien failed to deliver the goods, saying that he had no peanuts in his possession. The peanuts are valued at \$325.

Mr. O'Brien appeared before Magistrate Emery this morning at 11:30 o'clock, when he heard of the warrant, and surrendered. Mr. A. S. Thompson became his surety, and he will be tried Tuesday morning.

It is stated that O'Brien is innocent of any charge, and that he will show that the Southern Peanut company, which stores peanuts in his warehouse shipped the Cairo firm's peanuts away by mistake.

MAJOR AND SWEET MARIE

Poughkeepsie, N. Y., Oct. 17.—Sweet Marie and Major Delmar, trotters, which met at Allentown, Pa., yesterday, where Sweet Marie won easily, will meet again next Tuesday at the Hudson River Driving park here. They will trot a match race.

Some Political Gossip of the Local Campaign and What the Committees of Both Parties are Doing

Col. J. E. Potter Gets Another Lemon From Democratic Committee After He Has Been Elected President of the School Board—Charles Graham is Probably Slated for City Auditor if Tom Harrison is Elected—How Committees are Working Since Registration Has Shown Them Where They Stand.

Both parties now have their local tickets full. There were two councilmanic vacancies on the Republican ticket. C. C. Duvall was placed on the ticket in the First ward and T. E. Ford, the well known feed dealer, was nominated to succeed Mr. Samuel Hill, who withdrew from the ticket in the Fifth.

There was only one vacancy on the Democratic ticket. That was in the school board and Mr. Ben Wellis was nominated to fill a vacancy in the Second ward, caused by resignation of Ashley Robertson. This nomination rather complicates the school board situation in the Second ward, which has had a hard time keeping a representative on the board. Col. J. E. Potter, president of the board, was elected by the board itself to succeed Mr. Robertson, and his term will expire this fall. It was expected by his friends, of course, when a vacancy occurred on the ticket that he would be given a place; but Mr. Davis is a candidate again and Colonel Potter, with his usual political fortune, is left in the cold.

The City Auditor.

No more important clerical office exists in the city than that of auditor, a position Mr. Alex Kirkland has been filling in a manner to win the admiration of members of the general council, and whoever has occasion to call on that office for information concerning city affairs. The auditor has all fiscal matters at his fingers' ends. Many people have been inquiring who

MASONS PUT BAN ON LIQUOR TRADE IN CONSTITUTION

Louisville, Oct. 17.—(Special.)—By a vote of 430 the Kentucky grand lodge of Masons adopted an amendment to the constitution a resolution offered by James E. Wilhelm, of Paducah, prohibiting the entrance into the order of any person engaged in the liquor business. It becomes effective upon incorporation into the constitution today. All who are making a living out of the sale of liquor are included, meaning distillers and barkeepers. Men employed by distilleries, if not engaged in the actual sale of liquor are not included.

Murray's Lid is On Too Tightly.

Murray, Ky., Oct. 17. (Special.)—The opponents of the law now in force in this city, prohibiting cows from running at large, claim to have won a victory at the recent mass meeting held to nominate a ticket for city council, and say that when the men nominated are elected, which is regarded as certain, the obnoxious law will be repealed at the first meeting of the new council. The men nominated for the new council are said to also favor a modification of the present "lid law" in force, which prohibits the sale of any article of merchandise in the city on Sunday. Since the law has been in force it has been impossible to buy even a

WATCH FOR BALLOON.

St. Louis, Oct. 17.—If weather is favorable three balloons will be sent up in a practice trial late this afternoon, J. McCoy and Captain Chandler will ascend for an all night flight in the United States signal service balloon.

D. W. COONS IN WRECK.

Mr. and Mrs. D. W. Coons and Mr. and Mrs. Lawrence Rasor, formerly of this city, figured in a railroad wreck in the far west but escaped injury. They were en route to Los Angeles, Cal., from Salt Lake City when the train was derailed. They were jostled about but other than bruises were not hurt. The party left here more than a week ago to lo-

could be auditor in case Tom Harrison is elected mayor, and the prevailing opinion is that Charles Graham is slated for that important berth. The most active and enthusiastic supporters Mr. Harrison has are the Grahams and their personal interest in the campaign has done something to create the impression. Certain it is that friends and well wishers of Mr. Kirkland, who have inquired, have been unable to get any satisfaction out of Mr. Harrison, regarding the office.

A Bitter Campaign.

"We have 400 illegal Republican registrations" is the word the Democratic campaign committee is sending out to voters by mail. It is believed this assertion, and editorials in the News-Democrat in the guise of news on the front page, hinting at excessive registration, are designed to create suspicion in the public mind, so that wholesale frauds and intimidations to be resorted to, a la Franklin county, may be accepted as mere "purging" of the registration.

Republican committeemen say they have been exceedingly particular about the Republican vote and have stopped former convicts, who have not been restored to citizenship, in several instances. They also are investigating records, and numerous cases in which ex-convicts are registered as Democrats, will be exposed. Several instances, where voters living on short streets in the outskirts, have confused their numbers have been brought to light, and the committees of both parties will have these matters straightened out before election time.

Both committees will be busy from now on, and this promises to be the best organized campaign ever fought through in this city.

Clem Whittemore Pleaded.

Clem Whittemore, formerly of Graves county but now an officeholder at Frankfort under the Beckham administration, who is stationed in Paducah for the campaign, stated this morning that the local situation is entirely satisfactory to him, and expressed confidence in the election of the city ticket.

"The situation in Paducah looks fine and I look for an old-time Democratic majority," he said. "The registration shows a pretty satisfactory and the good lead already shown will be increased by the registration of a number of voters, who were prevented from registering."

Mr. Whittemore is also of the opinion that the Democrats have a splendid organization over the district.

CHARGES FILED BY COMMANDER OF TENDER LILY

Washington, D. C., Oct. 17.—There are indications that somebody wants the scalp of another river pilot, and that there may be a suspension of the pilot's license, as was done after a peremptory order by the president in the case of Capt. Clarence L. Nichols, of the steamboat Fred Hartweg, on Mr. Roosevelt's journey toward the Louisiana cane brakes. Charges have been filed against Capt. Mark Cole, master of the steamer Dick Fowler, which, like Capt. Nichols' vessel, was following the president and his party.

In the latter case the charges stand in the name of Commander Von Duzer, in charge of the lighthouse steamer Lily. Commander Von Duzer is a naval officer and the Lily was one of the convoys of the steamer on which Mr. Roosevelt was traveling.

Capt. Cole has been completely exonerated by the people on his boat and Mr. Saunders Fowler, who witnessed the incident, is perfectly sat-

FARMER HELD UP BY ARMED FOOTPAD ON COUNTRY ROAD

Held powerless at the point of a revolver, Alva Harper, a farmer of the county, was compelled to deliver all his cash, \$35, to a footpad this morning between 2 and 3 o'clock near the Wallace park baseball grounds. Harper was coming to the city when accosted by the footpad. As soon as possible he telephoned to police headquarters and reported, but it was out of the city limits. The footpad is described as being black, of medium build and height and wearing a light hat.

MAY SUE FOR DAMAGES

Patrolmen William Johnson and Casper Jones may sue M. C. Reasons, of Dyer county, Tenn., for malicious prosecution. Reasons made charges of robbery against the patrolmen several weeks ago, and after an investigation the board of fire and police commissioners cleared the patrolmen.

A NICE WINDFALL

Mr. A. J. Rigby, a paper hanger of Paducah, has received notice from Oswego, New York, that he is soon to come into possession of \$10,000 worth of New York real estate that has been bequeathed to him by William Little Rigby, who recently died in Oswego. Proper identification papers have been forwarded and Mr. Rigby expects to receive title to the property in a few days.

RAILWAY UNIONS.

New York, Oct. 17.—An amalgamation of the Order of Railway Conductors and the Brotherhood of Railway Trainmen into a compact union, which is to take in all the conductors, flagmen, brakemen and baggagemen employed on the railroads of the United States and Mexico is expected to be the result of a national convention of railroad employees which opened today in the Broadway Central hotel.

ILLINOIS CENTRAL ELECTION IS HELD TODAY IN CHICAGO AND THE STRUGGLE IS VIGOROUS

**Was Postponed From Yesterday and
Harriman and Fish Were Ready**

**Fight For Delay When Meeting was
Called to Order**

Chicago, Oct. 17.—No election of directors had been accomplished by the Illinois Central at noon today. E. H. Harriman, Stuyvesant Fish and John Jacob Astor are the retiring members and they seek re-election. A vacancy was caused by the death of C. B. Welling. Harriman and Fish are struggling for control of the board. Harriman has ben enjoined from voting the Union Pacific stock.

The meeting of the Illinois Central stockholders, which was called at noon yesterday, was finally adjourned late in the afternoon until 9 o'clock this morning. No vote on the directors was then taken. The delay was caused by the inability of three election inspectors, who were appointed to act as a committee on credentials, in considering the proxies to finish their work.

Adjournment was taken after an earnest tilt between William Nelson Cromwell, Mr. Harriman's leading counsel, and James A. Patten, a prominent member of the Chicago board of trade. Mr. Cromwell desired that the meeting be adjourned until 8:30 last night, while Mr. Patten was set on having it taken until 9 this morning.

The total outstanding shares of the Illinois Central number 950,400.

TOBACCO GROWERS ARE ORGANIZED BEST IN HISTORY

"The most perfect organization in the history of the Dark Tobacco Planters' Protective association" was the statement of Mr. John M. Allen, of Guthrie, Ky., district organizer and prominent in the councils of the association managers, this morning, when asked what he thought of the outlook for the success of the association this year.

"I am confident that 85 per cent of the crop is under the control of the association, and what was not pledged has been sold, leaving the association in control of practically all the crop for the present year."

Mr. Allen was here conferring with the county managers today, arranging details for the final disposition of last year's business and looking toward the handling and sale of the new crop, which will soon be coming into market. When asked what was the principal reason for the phenomenal success of the planters' association, he said: "The staunch loyalty of the farmers who entered the association with a determination to stick to it until they were given what was justly due them. Of course, the association has had wise management and leadership, but success would have been impossible without the hearty co-operation of the farmers. Another fact of much importance is that the tobacco has been honestly prized and graded. This has given the buyers confidence in the association."

"The system of pricing and grading in use has been such that the tobacco is placed on the market under much better conditions than the independent tobacco buyer can do."

Mr. Allen has been active in the work of organizing the growers and to his foresight and judgment much credit is given by his associates. He is a forceful and witty speaker, and aside from his logic, is a splendid entertainer. He has made a number of speeches in McCracken county during the present season and is popular here.

LITTLE HELEN LOVE.

Smithland, Ky., Oct. 17. (Special.)—Helen Love, the 12-year old daughter of Mr. and Mrs. I. B. Love, and granddaughter of C. B. Davis, died here this morning of pneumonia, following an attack of croup. Her father was in Texas and was telegraphed for. She is a niece of Mr. Cade Davis and of Mrs. W. H. Saunders, of Paducah, and has many rela-

Counting on the shares affected by Judge Ball's decision today, the total effective vote is 603,669 shares. Based upon previous meetings of the Illinois Central railroad, the estimate was that approximately 100,000 shares would not be voted. This, in the opinion of the attorneys in the case, would leave a probable representation of 503,669 shares at the meeting.

Frankfort, Oct. 17. (Special.)—The court of appeals today reversed the judgment of the McCracken circuit court, awarding Minnie Burradell \$2,000 for injuries received in a street car accident.

PRINCE IN DANGER.

Seoul, Korea, Oct. 17.—Now that the Crown Prince Yohito, of Japan, is in Korea, his countrymen here are alarmed. The prince appears to be disturbed over threats against him. Rumors are current of a plot to assassinate the royal visitor. Many suspects were arrested.

KENTUCKY SYNOD.

Midway, Ky., Oct. 17. (Special.)—Kentucky synod of the Southern Presbyterians, adopted a resolution, providing for filling vacancies on the Central University board of trustees, by members of the board themselves. It will become effective upon adoption also by the northern synod at Owensboro next week.

MORE BAD MONEY.

Several bad silver dollars appeared again at the market this morning, the first time the counterfeit money has reached the avenues of trade in several weeks. The dollars are the same kind of spurious coin that has been in circulation around the city for several months, and it is believed that some one is systematically placing the bad money in circulation. The counterfeit dollars are much lighter than the genuine and can easily be detected by the weight, though the coinage has a good appearance.

Made It Right.

A small boy was asked to take dinner at the home of a distinguished professor in Princeton. The lad's mother, in fear lest he should commit some breach of etiquette, gave him repeated directions as to what he should, and should not do.

Upon his return from the great occasion the mother's first question was, "Harold, did you get along at the table all right?"

"Oh, yes, mamma, well enough."

"You are sure that you didn't do anything that was not perfectly polite and gentlemanly?"

"Why, no—nothing to speak of."

"Then something did happen. What was it?"

"But I fixed it all right, mamma."

"Tell me at once."

"Why, I got along pretty well until the meat came, but while I was trying to cut mine it slipped off on the floor. But I made it all right."

"What did you do?"

"Oh, I just said, sort of carelessly, 'That's always the way with tough meat.'"

S.S.S. PURELY VEGETABLE

S. S. S. is recognized everywhere not only as the best of all blood purifiers and the greatest of all tonics, but the one medicine that can be taken with absolute safety by everyone. Young or old, those in robust health, or those whose systems are delicate and run-down, may use it with the same good results, and equally without fear of any unpleasant or injurious after effects. Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic dyspepsia, unfavorably affecting the bowels, and so deranging the system otherwise, that even if the original disease had been removed from the system it is left in such a weakened and deranged condition that the health is permanently impaired. S. S. S. enjoys the distinction of being the only blood medicine on the market that does not contain a mineral ingredient of some kind. It is made entirely of the healing, cleansing extracts and juices of roots, herbs and barks gathered directly from the forests and fields of nature, under our own supervision, and when they reach our laboratory contain all their original valuable tonic and blood purifying properties. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral in any form. Being made entirely from these vegetable ingredients S. S. S. is absolutely harmless to the system, and while curing disease adds health and strength to every part of the body. S. S. S. cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all other blood troubles by removing the cause and supplying the circulation with health-giving and strength-producing qualities.

ANY CITY MAY BID FOR CONVENTION

If it is Able to Furnish Necessary Accommodations

Money, Convention Hall and Sleeping Rooms Required by Republican National Committee.

SEVERAL ARE AFTER MEETING.

Washington, D. C., Oct. 17.—Any city which has \$100,000 to spare, with a hall seating from 7,000 to 10,000 persons, with adequate hotel accommodations for 2,000 delegates, alternates and officers, plus 10,000 to 20,000 visitors, and the whole surmounted with an adequate telegraph service, can make a bid for the next Republican national convention with a fair prospect of success.

The call for the meeting of the national committee will probably be issued during the latter part of this week, when Chairman New arrives in Washington and has a conference with Secretary Elmer Dover, who is already in town. If the usual custom is followed, the committee will meet in this city somewhere about the 6th or 7th of December, which are the last two days of the week in which the new congress meets.

Many Cities Already Bidding. It is not necessary for any city which desires to have the convention to file claims with the committee in advance of the meeting. Representatives of most cities write to the secretary for information as to what will be required. Their communications have enabled Secretary Dover to make up a list of cities now known to be moving in this direction, which includes Chicago, St. Louis, Kansas City, Denver, Seattle, Pittsburgh and Boston.

There is nothing to prevent any number of other cities coming to the front and presenting their claims at the last moment. It has been the habit, however, for any city which is really in earnest to begin its campaign early in the fall, and it has frequently happened that the national committee has convened with a membership practically pledged up for different cities. Afterwards there comes a natural surrender by the weakest cities and a series of rapid combinations which finally fix on a choice.

Convention Will Not Be Sold. I was told at the national committee headquarters today that the convention would not be sold. That is to say, it will not be put up to the highest bidder and knocked down for a money consideration without regard to convenience of delegates and the large crowds which are always attracted. At the same time money is absolutely necessary for the holding of a convention, and there is no means of securing that money except by subscription on the part of the public spirited citizens.

Since 1892 it has come to be the custom for any city which desires a convention to pledge itself to subscribe a sum approximating \$100,000. Out of this fund all expenses of the convention are paid. At Chicago in 1904, it cost about \$28,000 to secure and fit up the Coliseum building. There was spent for other legitimate expenses of the convention itself something less than \$10,000 more. All the rest of the fund, amounting to over \$60,000, was turned over to the national committee, not for the purpose of conducting an actual campaign in any way, but for the usual preliminary committee expenses.

Much Work in Store. There is a vast amount of work nowadays in anticipation of a national convention. The membership retains about 1,000, and there are, in addition, an equal number of alternates. The credentials of all these must be inspected and passed upon before the convention meets. Consultants have to be heard by the national committee, and decisions made in each case before it is possible to make up a temporary roll of the convention.

Besides this, the actual work of preparing the hall requires the attention of a sub-committee for several weeks. Many modifications have to be made in any large building, committee rooms provided, telegraph facilities arranged, telephones properly adjusted, and all machinery so carefully put together that it will run at high tension for a few days without danger of breaking. All this work is attended to by the national committee, and the expense involved comes out of the \$100,000 fund after the local committee has turned over the balance in its hands.

DRY UP RAW SPOTS IN THE SKIN.

Read How You Can Eradicate Those Terrible Red Spots Which Itch and Torture You.

Those raw and burning spots in the skin which make you scratch until you are almost mad with torture—they can be dried up and the skin will become as pure and white as ever by the use of the most simple external remedy known to medical science—a remedy made simple by the fact that its basic ingredient is oil of wintergreen. It is a liquid remedy used externally for Eczema, ring worm, barber's itch and other diseases of the skin, sold under the name of D. D. D. Prescription. This remedy instantly kills the germs which cause the itch. We know that the instant you apply a few drops of the D. D. D. liquid to that awful itching skin the agony is gone—you are free from that itch, soothed, cooled, refreshed—soon the unsightly red spots with their nasty exudations begin to disappear.

Read this letter from Mrs. J. W. Choate, of Carrollton, Wash., one of many thousands we have:

"I am thankful that a cure has been found for that terrible disease, eczema. Our little boy was tormented with eczema for two years. I sent for a sample of D. D. D. and it helped him wonderfully. After using three bottles he is well. I cannot say enough for D. D. D. Today the child's skin is smooth and clean and I shall recommend D. D. D. to every sufferer with skin disease."

While we have not seen the original copy of Mrs. Choate's letter, we are sure it is a genuine letter; for we know that the D. D. D. Co. is constantly getting hundreds and hundreds of letters of endorsement from those who have been cured by D. D. D. We know from people in our own town how wonderfully D. D. D. helps skin sufferers, and if you have any kind of skin trouble at all, drop into our store and we will show you letters from those who have been cured, your own neighbors, perhaps, letters giving important news to skin sufferers. DUPONT, VICE HEAD OF POWDER CONCERN, WEDS.

New York, Oct. 17.—Alfred I. Dupont De Nemours, vice president of the Dupont Powder company, of Delaware, and Mrs. Alice Maddox, his second cousin were married Tuesday at Hotel Plaza. Only the immediate members of the family were present.

Neither Mr. Dupont nor his brother Morris, who is the executive head of the powder company, had been allowed to hear of the explosion at the Dupont Powder company's plant at Fontanet, Ind.

Mrs. Dupont is a daughter of Judge Bradford, of the United States circuit court, and is a granddaughter of Alexis I. Dupont, son of the founder of the powder company. For the last year she has made her home in Paris. Last spring she sued for a divorce and the custody of their only child. Mr. Dupont obtained a divorce from Bessie C. Dupont at Sioux Falls, S. D., last December.

Drinking Fountains Here.

Four fountains to be installed at street intersections by the Daughters of the American Revolution, have arrived, and Contractor Ed Hannan is today installing two of them, one at Third and Broadway and the second at Seventh and Washington streets.

Coliseum at Chicago was a little less than 10,000, owing to the adoption of the new fire regulations, involving the widening of the aisles. It now could hold about 12,000. It is not every city that can furnish such an auditorium, and yet this is probably the most indispensable requisite for large conventions. Any city which appears before the national committee will have to show that a hall seating approximately as many as the Coliseum at Chicago is actually on hand or surely will be built before the convention meets.

The building of a hall of this kind, especially for a national convention, is not looked upon with favor nowadays. A convention can and frequently does finish up its work inside of three days, so that it hardly pays to put up a temporary structure.

Next to the hall itself, the national committee generally scrutinizes the hotel capacity of a city most carefully. Large headquarters are required for the national committee and for all of the more important state delegations. These headquarters must be grouped together, so as to permit frequent conferences between leaders of the different states. They need not be near the convention hall, however.

Hotels in Great Demand. After the headquarters are disposed of there must be a large residuum of individual rooms, because there are in legitimate attendance upon a convention, including delegates, alternates, correspondents, officials and visiting delegations, not less than 5,000 persons, often more.

Then there comes the question of telegraph facilities. A national convention means that millions of words of dispatches must be sent out from that one city. This telegraphic work is concentrated not only within a few days but within comparatively a few hours of each day, so that the telegraph facilities must be of the metropolitan class, and a city which is deficient in telegraphic capacity might as well hang up its shingle at the outset.

THEATRICAL NOTES

AT THE KENTUCKY.
Saturday—(matinee and night)
Porter J. White's "Faust."

Helen Grantly.

In its review of "The Woman in the Case," which Helen Grantly is to present at The Kentucky tonight, the New York Herald says: "Clyde Fitch scored a dramatic hit and Helen Grantly a notable success in 'The Woman in the Case.' In the course of the plot Miss Grantly's acting rose to one or two impressive climaxes and was at all times interesting. The audience called her repeatedly before the curtain with enthusiastic applause." The production will be seen here with all its wealth of detail precisely as seen during its four months' run at the Herald Square theater in New York in addition to engagements at five other Metropolitan theaters, it is claimed.

A Great Production.

No more magnificent production scenically than the "Faust" of Porter White, is to be seen on the road this season. The electrical effects are said to be beautiful and startling and add greatly to the illusion of the classic drama, as prescribed by an excellent company of actors. The production will be the bill at The Kentucky Saturday, matinee and night.

EDUCATION

TO ENLIGHTEN PUBLICS AS TO RAILROADS' BENEFICENCE.

Odd Plan Suggested By Begg to Regain Confidence of Public of America.

Atlantic City, N. J., Oct. 17.—The annual convention of the American Railroad association began here today. In his annual report John I. Begg, president of the association, declared that the politicians who attack the corporations to improve their constituents threaten ruin to many of the street railways of the country. He urged members of the association to begin a campaign of public education that will include taking the people into the confidence of the railroad officials as a means of meeting the danger. Reports show that 213 companies are members of the association.

MR. HAGER'S PLATFORM

In his opening speech at Lexington, Judge Hager said:

"I do not, therefore, come before you with a perfunctory platform, formulated by a few leaders and languidly adopted, without debate, by a meagerly attended convention, but with one that has been made and approved as their own, by the direct untrammelled votes of thousands of my fellow-Democrats for whose consideration it was presented."

In other words, this is the official platform of the Democratic party and its candidate. This being true, we desire to call attention to the fact that this platform contains eleven planks and not a word is said concerning the temperance question, which is the paramount issue in Kentucky. Judge Hager professes to be a temperance man. Why does he not endorse the cause of temperance in his platform?

In striking contrast, we call attention to the utterance in the Republican platform:

"We favor the enactment and enforcement of a uniform local option law, with the county as the governing unit."

It is apparent that Hager is attempting to carry water on both shoulders. He announces that personally he is in favor of temperance. This is done to catch the temperance vote. He then announces his party platform, that he made himself, and in which there is not a syllable about temperance. This is done to catch the liquor vote.

The people of Kentucky cannot be deceived in this matter. They prefer to accept the honest, candid statement of Mr. Willson, who clearly defines his position without subterfuge or evasion.

European Skin Specialist Says Dandruff is Caused By Parasites.

Upon that theory, proved beyond a doubt, a cure for dandruff was sought after. Scientists, chemists, druggists and physicians all "took a hand" and the successful issue is the present product known as "Newbro's Herpicide."

This remedy actually kills the parasites that infest the hair bulb, does its work most effective and contains not an atom of substance injurious to anything else than the germ alone. Herpicide causes the hair to grow as nature intended it should, soft and abundant.

GREATER PADUCAH KENTUCKY

GREGORY HEIGHTS ADDITION

The Pride of the Pride of the Purchase

800 Elevated, Improved Lots at Auction Wed. Thur. and Fri., Oct. 23, 24 and 25

The great need of Paducah is elevated lots for homes. Gregory Heights is and always will be the ne plus ultra of Paducah residence property.

Street Cars Absolutely Free for Everybody to and From the Sale

Sale at 10 o'clock each day. Large, seated sale tent. Fine music. Lunch at sale. Everybody, and ladies especially, invited. The outing can be made both pleasant and profitable.

At last the great and long-felt need of Paducah for high, dry, cool, healthful and beautiful homes, with street car transportation, can be partially supplied. Beautiful Gregory Heights, which all who have seen know and say is and always will be the cream of the cream—the ne plus ultra of Paducah residence property, is ready for sale and a portion of the lots will be sold on above dates. A mile of the Gregory Heights electric car line has been completed on the property, the streets have been nicely graded, the drives and sidewalks are being improved, and a home in beautiful Gregory Heights, the future pride of Paducah, will soon be the fad of the city.

GREGORY HEIGHTS IS HIGH, DRY AND HEALTHFUL.

It is well known that the ground in and nearly all around Paducah is about the same elevation of the city (much of it lower) and that there is a great and rapidly increasing demand for high ground for residences. It is well known that for altitude, drainage, dryness, healthfulness, pleasantness, nearness, exclusiveness, exemption from objectionable appurtenances, electric car transportation, best street connections and extensions, good improvements and neighborhood; no other residence district of Paducah is or can ever be equal to Gregory Heights. Think of the situation and you will be convinced that Gregory Heights will surely and quickly be the finest residence district of Paducah. The city is hedged on the east side by the river, the manufacturing district is on the south, a mixed district of factories and small houses is on the north. Where else, then, can the good residences go except west and on to Gregory Heights, which is directly in line and is the nearest and only property on such altitude that has street car service and the two best streets in the city (Broadway and Jefferson) extended to and through it, which is a great advantage that no other such elevated and near in property has or can have? Paducah's most rapid and substantial growth has been made in the last three years. Her prospects are evidently brighter now than ever. Present conditions and assured developments forecast a phenomenal future growth from now on, and Gregory Heights, the ideal home place, will be well occupied by Paducah's prettiest homes and happiest community, and will, in reality, be the pride of the pride of the Purchase. And then fortunate and thankful will be all who own homes or lots there, for they will be scarce, in great demand and very high. Some men have good foresight, and can grasp opportunities, but most men have better hind-sight, and can't see good things until they have passed.

SIGNIFICANT SIGNS OF THE TIMES.

Railroad magnates are among the brainiest and ablest men in the land. They think, plan and act for best results, and the profound, carefully planned and gigantic plays they are making on the great checker board of the Southern States, for vantage positions in this great, world wonder arena of matchless growth in products, population, commerce and wealth, are truly significant, and unmistakably forecast the great and good times just ahead. In this connection, have you considered Paducah's strong position and her great combination of attractions, advantages and resources, and her certainty to reap a large portion of the immense harvest of business, wealth and population in sight? Can't you see quick and large profits in the best residence lots in Paducah? Gregory Heights is and always will be the best, and nothing can beat the best.

COSTLY AND PERMANENT IMPROVEMENTS.

The grading and graveling of the streets and sidewalks, the construction of the new electric car line, heavy cement culverts, drain pipes, and other improvements, are first-class and permanent, and will cost the Gregory Heights Company a large sum of money—about \$65,000.00. But they are well done, and done to endure and give satisfaction, therefore all who buy lots will get full benefit of all these

improvements without additional future cost to them, which is very important to lot-buyers, and adds very much to the value and desirability of this fine property.

BUILDING RESTRICTIONS.

All lots in Gregory Heights will be sold with suitable building restrictions, thus assuring a high grade addition and greatest satisfaction and values to home-builders and investors.

A FEW BUSINESS LOTS.

To be selected by the Company, will be sold for mercantile purposes, for the convenience of residents of Gregory Heights, but the manufacture or sale of whiskey or any intoxicants will not be permitted. It is the determination of the Company to make Gregory Heights a strictly first-class and most attractive home addition, so that all who build or buy there will be abundantly delighted with their homes or greatly profited by their investments. Nature has formed and located Gregory Heights just right for it to be what it is intended to be and will be.

GREATER PADUCAH.

Nature has planned and destiny has marked Paducah to be one of the great inland cities of the South, and her future is absolutely assured.

SPLENDID GEOGRAPHICAL POSITION.

Paducah is surrounded by an immense area of very fertile country naturally tributary to her, the enormous and diversified products of which will be mainly handled by her retail and wholesale merchants, and will make a great, constantly-increasing and lucrative volume of business.

BEST WATER TRANSPORTATION.

Paducah occupies the best position in the United States for inland water transportation, being the most central, accessible and convenient city to the greatest mileage of navigable rivers in the United States, and, perhaps in the world. The great central river system of the country, embracing six fine navigable streams and their numerous tributaries, and over 3,000 miles of navigable waterways penetrating in wide-spreading and far-reaching courses over 270 degrees of the vast surrounding domain, and all flowing down stream toward their confluence at or near Paducah, and into the Mississippi only 47 miles below the city, give Paducah navigable water transportation to an enormous area of the central and best portion of the United States, 1,100 towns and also with the gulf and ports of the world. Can this strong position and these great advantages fail to win? Can Paducah fail to be a big city? Certainly not.

GREAT RAILROAD CENTER.

The railroads are fully aware of the importance of Paducah as a receiving and distributing point and are preparing to come in and share the great volume of business. The writer is informed by persons claiming to know, that six great trunk lines are now planning to come in, and that three of them—the Big Four, Wabash and Burlington—are now making surveys, plans and estimates for routes and river crossings to the city, and others will follow, for where the business is the railroads will come. With these great railroads assured, Paducah will grow by leaps and bounds. The above information as to three of these great roads is from official sources and is reliable.

PADUCAH SOUTHERN ELECTRIC R. R.

This very important road from Paducah to Mayfield, and to be extended later to Jackson and Memphis, has been capitalized, is being located, and will be pushed rapidly to completion. Another electric road is projected from Paducah to Cairo, and doubtless several inter-urban feeders to Paducah will be built. This is the age of interurban

as well as steam railroads, and they are very convenient, successful, profitable, and wonderful developers and enhancers of business, travel and values. This county will be a net work of steam and electric roads, and Paducah will get her share of them. A great deal more valuable and interesting information about Paducah could be given if space permitted, but it is not the purpose to give a thorough write-up here. Come to this sale and see the physical conditions, the necessity for highland residence lots, the unequalled advantages and attractions of beautiful Gregory Heights for those highland homes, and then you will know whether or not it is the best property to buy for homes, or for quick and large profits.

TO PEOPLE OF OTHER TOWNS AND FARMERS.

If you want to make money easily and quickly, why not come and buy either as individuals, or make up companies or syndicates of 5 to 25 of your own people and buy a large number of Gregory Heights lots at this sale and make the big and quick profits that will be made on this fine property? If you want or expect to have homes in Paducah, where your families can have the benefit of the good schools, society and advantage of the city, you should attend this sale and secure lots in Gregory Heights for your homes, or to sell again for big profits. The cost of the trip to this sale will be a trifle compared to the big profits you can make on Gregory Heights lots. Remember the time, and don't fail to come.

Examine the map carefully and note Paducah's splendid, central situation, where she has the greatest possible advantage of the main navigable river system of the United States, and is also in line with the great current of railroad travel and traffic between St. Louis, Cincinnati, Chicago and the great lakes of the North; and New Orleans, the gulf, the ports of the world, and a large portion of the rapidly growing Southern States and cities.

A FINE, PERPETUAL OPEN HARBOR.

Another of Paducah's great advantages is her year-round open harbor. The island opposite the harbor divides the waters of the Ohio and Tennessee, so that the water and ice of the Ohio flow by on the off or far side of the harbor, while the warmer water of the Tennessee flows directly into the harbor, and thus Paducah's fine harbor is kept open and free of ice the year round.

HOW THE SALE WILL BE CONDUCTED.

This sale will be held mainly under a large tent, with seats that will be comfortable and restful. A large cloth map, showing the entire property on a large scale, with the blocks in contrasting colors and the dimensions of the lots in plain figures, will be put up in the tent, and each lot, as offered will be indicated by an arrow head. Each lot will be sold with the privilege of as many adjoining lots, side or rear, under one bid, as purchaser may desire, so that purchasers may secure, by one bid, as much ground as they may desire, and in any shape they may desire it. Lots will not be sold solidly, the purpose being to reserve a portion of each block for future sale. But every purchaser will have privilege of taking, at one bid, as many lots in a solid body as desired, even to the half or whole of a block. Some of the lots that are in the groves and can not be seen from the tent, will be flagged and sold right on the ground. The purpose in announcing a three days' sale is to have ample time for all to carefully examine the beautiful ground and select what they want. If the third day be not needed, the sale will close the second day; therefore all who wish to attend should do so on the first and second days. If weather be suitable, there will be a sale and concert on the ground by moonlight and electric light Wednesday night, the 23rd, at 7 o'clock, and also at a central place in the city Thursday night, the 24th, at 7 o'clock, so that all who wish to attend the sales and can not do so during the daytime, can attend one or both of the night sales. Notice of the regular program or any changes in it, will be given in the city newspapers. Broadway cars will run every ten minutes right to and from the sale without charge, and free for all both ways.

A QUESTION AND ITS ANSWER.

It is not often that the Daily Side-Stepper on Fourth street gets into a corner, where a straight-arm blow will catch it on the nose. All through the present campaign it has been insinuating, and bluffing and blustering and ducking and evading, but Sunday it came out with a scare head over an interview with a politician, who, it said, "frequents negro dives," and who told of colored voters approaching James P. Smith with threats that unless he promised them appointments in writing, he would lose the colored vote. The statement was a lie and The Sun drove a nail straight through it.

But that direct manner of dealing with its dive haunting political friend did not daunt the organ. The Sun said: "No colored voter has approached James P. Smith with a demand for official recognition for himself or anyone else in return for the vote of the race."

The organ comes back with this lion:

The afternoon Republican does say that James P. has not been approached by colored voter with the claim that official recognition should be given him. Ah, but suppose 'approached,' and he managers will be, what is the answer? Will the organ kindly advise it is in a position

any question. Here is a Any such demand

would be met with instant and positive refusal even to consider it. You are answered.

The Louisville Times says "Tyler is making wonderful gains and will win by 5,000." If we knew how much the Times considers "wonderful," we would know how much Tyler has to gain to win by 5,000.

HAGER'S PERFDY.

In explanation of the following editorial clipping from the Nashville American, the Owensboro Enquirer (Democrat) says:

"To employ a stereotyped expression, Kentucky is in the throes of a political campaign. The Democrats expect to win, as usual, but there are some indications which point to a close race and the possibility of the election of Willson, the Republican nominee for governor. Many Democrats say the state has had too much machine politics. What the state would gain in the election of a Republican governor is not clear."

"The American does some very fine guessing in the foregoing. In fact, some of it is not guesswork. Straight facts. The state has had too much machine politics, and the people rebelled against it in 1895 and in 1899, but the machine, through the legislature, set at naught the will of the people as expressed at the polls. The machine has made some deals lately by which it hopes once more to come into control of the Democratic party in the state and, therefore, once more be so entrenched in the state as to resume their graft games. The American also says:

"The present governor, Beckham, has shown himself to be stronger than some at first gave him credit for being, and he has certainly been a very successful politician, who expects to succeed McCreary in the senate eighteen months hence. This depends on the complexion of the legislature which meets next January."

"There is no probability of Beckham's defeat. Well informed Republicans admit that they do not hope to beat him. He has made no compromise with the machine, therefore is stronger with the masses than he was two months ago."

"Hager made a deal with the ringsters. He sanctioned the ring municipal ticket in Louisville. Owen Tyler, the head of that ticket, hasn't stopped at putting his foot in it bad, but he has jumped in with both feet, head and ears, and Louisville is lost to the Democrats anywhere from 6,000 to 15,000 Republican majority for Grinstead. Hager will lose Louisville, too. In fact there is not much hope of any Democrat's carrying it. The ringsters themselves are disgusted with Tyler. They desire the lid off Louisville and the open Sunday saloon, but they didn't want their candidate to boast in the campaign that he was for an open violation of the law. The ring has made a mess of it in Louisville, and what it may cost the party in the state remains to be seen."

THE REGISTRATION.

What story do the registration figures tell? Is the question one hears variously expressed on the streets.

It is difficult to understand what most people anticipated. Some of them seemed to think the Democrats, who intend to scratch their ticket this fall, would register as Republicans, and vice versa. In the face of this conclusion, members of the city Democratic committee frankly admit that 300 of their registered voters will support James P. Smith, and they claim several Republicans for Harrison. A man usually registers year after year in the same party and votes as he pleases. There is no reason for his changing party affiliations every year he decides to scratch his ticket. The advantage in not doing so is obvious.

The registration shows only whether or not the two parties got out their full vote. With a steady growth of population, it was not to be expected that there would be any marked change in the political balance of Paducah.

There was a big registration, but both parties claim to have out a hundred votes. The figures show that while Paducah has had a steady growth in four years, the Democrats have not maintained their relative majority. In an increase of a thousand votes in four years (no greater increase than should have been expected) the Democrats have fallen in their majority from 672 to 538.

It is scarcely worth one's while to compare the registration this year with that of last year, unless one wishes to create a bugaboo about excessive registration, for the vote last year does not compare with the vote four years ago in numbers for the good reason that four years ago there was a state election and last year the highest office was that of police judge.

There is a comparison, however, that is profitable. Two years ago the Republicans won. With 1,253 fewer votes registered then, the Democratic lead on registration was only 60 votes. In other words, the standing of the parties is only 60 votes different this year with 1,253 more votes capable of changing. Thirty of those 1,253 extra votes would put the parties in exactly the same ratio. In addition there are 155 more independent votes, and the Democrats will concede to the Republicans practically all the independent votes.

There is nothing in the story the figures tell, except that the Republicans have made a decided gain in registration in four years, indicating that the principles of Republicanism are gradually gaining the ascendancy in Paducah as they have for a half dozen years. This election is going to be decided on the independent choice of citizens, regardless of party affiliations.

It is gratifying to see the voters

taking an interest in the campaign and demonstrating their intention of voting. It is also pleasing to see how the registration reflects the growth of Paducah in four years.

A CHAPTER IN MR. HAGER'S TEMPERANCE RECORD.

In 1904 a brewing company applied to the county clerk of Laurel county for a license to establish a wholesale depot at Pittsburg in that county for the sale of their beer. Laurel being a local option county, the clerk wrote to Auditor Hager, the chief fiscal officer of the state, and was advised that it was his duty to issue the license which he did on July 1, 1904. Later the attorneys for the brewing company, not being satisfied as to the right of the clerk to issue the license, wrote Mr. Hager, the auditor, and requested to know whether the license should be issued by the auditor or by the county clerk, and Mr. Hager replied that it should be issued by the clerk.

In June, 1905, before the first license expired, an injunction was sued out by citizens of Pittsburg, Ky., and the clerk restrained from issuing the license. The clerk therefore refused to renew the license and the attorneys for the brewing company tendered the tax to the auditor, who, in accord with his former decision that the clerk should issue the license, and in obedience to the injunction, refused to issue the license. Thereupon the brewing company sued out a mandatory injunction to compel the auditor to issue the license. Judge Stout, an appointee of Governor Beckham, granted the injunction. The auditor appealed the case and might have refused to grant the license pending the appeal, but instead of doing this he issued the license, and drunkenness, debauchery and crime cursed the people of Pittsburg for nearly one year longer, when the court of appeals reversed Judge Stout and the brewery ceased from business at that point. In the meantime many indictments were found against them, and on appeal from fines in these cases the court of appeals decided that neither Auditor Hager nor the county clerk could issue license in a local option county.

In Mr. Hager's eagerness to serve his friends the brewers, remembering, no doubt, the \$3,500 check which the brewing combine had given to help his election in 1903, he neglected to ask the attorney general for his opinion on the law, but advised the county clerk, who must report to the auditor, to issue the license notwithstanding the local option law prohibited such action.

Killed From Ambush.

San Antonio, Tex., Oct. 17.—A special to the Express from El Paso, Tex., says:

Four men and three women, one of the former being a government mail carrier, were ambushed and killed between San Jose de Hila and La Colorado, east of Hermosillo, in the lower Senora country, by Yaquis.

The butchery was discovered a short time afterwards by a party of American mining men who were traveling over the trail with an escort of Mexican soldiers.

Mrs. Chadwick Made Wills.

Cleveland, O., Oct. 17.—Lawyers for the late Cassie Chadwick today made public a will made in 1902, in which she disposes of over \$1,000,000 to relatives, servants, educational and charitable institutions. This will is superseded by one she made in the penitentiary two years ago. Mrs. Chadwick left no property so far as known.

No Hope for Emperor.

Vienna, Oct. 17.—Emperor Francis Joseph is suffering today from recurrent fever. Physicians confess his symptoms are unfavorable and hold out little hope for his recovery.

VETERAN INTRODUCES WILLSON AT BOWLING GREEN.

Candidate for Governor Scathing in His Denunciation of Henry Hines.

Bowling Green Ky., Oct. 17.—The Hon. A. E. Willson, Republican nominee for governor, spoke at the opera house here yesterday afternoon to an audience of fully 1,200 people, mostly veterans. The opera house was crowded to its utmost capacity, and a great many were unable to gain admission. One noteworthy feature of the audience was the presence of hundreds of Democrats, several of whom occupied seats on the stage. Mr. Willson was introduced by Robert Hurd, an old ex-confederate soldier, and one of the best known farmers of Warren county, and who has always until recently, been a Democrat.

Mr. Willson spoke for an hour and a half, and at the end his audience seemed loath that he should quit. His speech was pronounced by all to be a masterpiece of exposure of the state ring.

He spoke of the great number of Democrats and old confederate soldiers who called on him at his room at the hotel before the speaking, and said that he was meeting with the same encouragement in every county in which he had been during the campaign, which he said was conclusive proof that the hypocrisy and inconsistency of the Beckham-Hager administration was becoming known by every one.

He referred to Henry Hines, state inspector, and chairman of the Democratic campaign committee, whose home is in this city, in the most scathing terms, and charged that Hines was drawing his salary of \$250 from the state and not rendering one bit of service, and had not done so for months. He charged Hines with coming to Bowling Green and leading the whiskey forces in the recent local option campaign, when he should have been inspecting Bill Semolin's records. He designated Mr. Hines as the "wet nurse" of the state ring trying to conduct a so-called dry campaign.

He referred to his Maysville speech on the temperance question, and emphatically declared himself in favor of the county unit law applying to every county of the state.

Mr. Willson's speech was well received, and judging from the scores of Democrats who pressed forward to meet him and tell him they were for him, after the speaking, it is freely claimed by the Republican leaders that Willson will carry the county.

Heinz Firm Is Spunky.

New York, Oct. 17.—An informal statement today of the firm of Otto Heinz & company declared itself perfectly solvent and able and willing to meet and pay all just legal obligations in full. The statement declared, however, the firm at this time refused to pay a number of obligations not considered legal and just, and rather than to submit to these unjust demands would permanently suspend trouble in the copper market is the cause.

\$25 Reward.

The city Republican Campaign committee will pay \$25 for any evidence leading to the prosecution and conviction of any one guilty of buying or disposing of registration certificates.

What Osteopathy Is.

The question is often asked "What is Osteopathy?" for some people have a very vague idea of this new science that is doing so much to aid mankind. Osteopathy, when well digested, is nothing but good sense and reason. It is a method for treating disease by manipulation, to restore the normal condition of the nerve control and the blood supply to every organ of the body by removing the physical obstructions, or by stimulating, or checking, functional activity, as the conditions may require.

A diseased body is caused by some interference to a working part of the organism, and a correction of it brings restored health. Therefore, osteopathy finds the disturbance and, fighting it, effects its cure.

Some of the diseases in which osteopathic treatment has been the most effective are headaches of all kinds, nervous disorders, malaria and bilious, tired down and fagged out conditions, indigestion in its many forms, kidney troubles, neuralgia and rheumatism. It treats successfully however, nearly all diseases. If you are ailing, no matter what your particular trouble may be, I should like to have you call and let me tell you why Osteopathy will cure in your special case. I do not claim that Osteopathy is a cure-all, but am frank and will tell you what it will do in any individual case, at the same time referring you to people you know, who will gladly tell you what the treatment has done for them.

My office hours are from 9 to 12 in the forenoon and 2 to 5 in the afternoon, phone number 1407.

SUITING THE YOUNG MAN

THE young fellow is the faithful follower of fashion. He is always the first to change and the first to adopt it.

Our smart suits are accepted by young men as interpreting their ideas of style.

Our Fall Suits for these swell young dressers are of smart fabrics and are cut and tailored with all the style that can be worked into a suit.

It's the smaller details that put style into a young man's suit, and they have received careful attention. Our prices are certainly very reasonable.

\$10, \$12.50, \$15 up to \$20 or \$30

Mr. Young Man, if you're after smartness in a fall suit—here's where you can get what you're looking for. We'll be pleased to show you any day.

Change in Broadway Beats.

Chief of Police James Collins has split the Broadway beat, dividing it between Patrolmen Casper Jones and Elmus Carter, Elijah Cross and William Johnson. The section between Fourth and Seventh, Monroe and Washington is to be patrolled by Jones and Carter from noon until midnight. From 6 a. m. until noon Patrolmen Cross and Johnson will patrol the entire beat, working the second half only after Patrolmen Jones and Carter come on duty.

Find Plot to Destroy Town.

Webster City, Ia., Oct. 17.—An attempt was made last night to blow up the little town of Stratford, south of this city. Five sticks of dynamite, enough to have destroyed the town, were found this morning under the city water tank. The long fuse had been lighted but had gone out. Bloodhounds tonight followed the track of the fiends to the Des Moines river, where it was lost.

Favors Church Union.

Cleveland, O., Oct. 17.—The report of the committee of twenty-eight to which had been referred the question of tri-church union, was made to the triennial council of the Congregational church in session here tonight. The committee is unanimous in its report favoring the proposed amalgamation of the Congregationalists, Methodist Protestants and United Brethren.

And the Cat Escaped.

Findlay, O., Oct. 17.—Don Clark, 5 years old, this morning placed a large glass globe over the family cat and then sat down upon the globe, which broke. Pieces of glass cut an artery and it is feared he will die. The cat was uninjured.

GOVERNOR WARNER IS BEATEN.

Administration Primary Measure is Sidetracked at Lansing.

Lansing, Mich., Oct. 17.—The administration opponents today succeeded in substituting for the Allen primary bill a measure drawn by the attorney general smoothing out the provisions of the present primary act, but retaining the 40 per cent clause relating to the nomination of governor and lieutenant governor. The bill was ordered printed, and will be considered by the senate Thursday. The anti-lobby bill was referred in the house to the committee on judiciary.

Boiler Explosion.

Belton, Tex., Oct. 17.—At 4 o'clock this morning two men were killed by an explosion of three boilers in the Celton Cotton Oil Mill. The dead: RAMIE DYE, white engineer. ROBERT OWENS, negro fireman. Engineer Dye must have been in the engine room when the explosion came, as he was enveloped in a cloud of steam and was covered with boiling water.

A FRIGHTENED CHILD JUMPS TO HER DEATH.

Ashland, Ky., Oct. 17. (Special.)—Frightened by her sister while playing ghost, little Clara Osgood leaped from the second story window at her home near Reedville and was instantly killed.

SALOON IS ENTERED.

Charles T. Graham's saloon, at Ninth street and Kentucky avenue, was entered between 12 o'clock last night and 5 o'clock this morning about \$1 in cash and many pint bottles of whiskey were stolen. No clew was left. On opening his saloon this morning at 5 o'clock, Mr. Graham found the back door standing open. The lock had been forced, a heavy stick being used. The cash register, an expensive one, was wrecked, the fronts to the drawers being torn open.

A small chewing gum machine was burst open and about \$1 in cash taken from it. Two baskets were stolen and filled with pint bottles of whisky. How many pints were taken cannot be estimated.

Mr. Graham's saloon was broken into several months ago in the same way, and the cash register damaged.

PEOPLE AND SOCIAL EVENTS

Forestry Meeting Will Not Be Held Until Late in November.

Mr. John S. Bleeker, of the Forestry committee of the Commercial club, received a letter today from Dr. Thomas Elmer Will, secretary of the American Forestry association, saying that his dates had been changed and that he would not be in Paducah until the latter part of November instead of November 4, as was first arranged.

The civics department of the Woman's club, which was to co-operate with the forestry committee in having Dr. Will lecture here, will have an open meeting on November 7, with local speakers on a program for civic improvement, and the forestry meeting will be held whenever Dr. Will can come.

Box Social at Mizpah Mission.

There will be a box social at the Mizpah mission on Elizabeth street Friday evening at 7:30 o'clock. Each girl is requested to put her name on her box, which must contain luncheon for two people. An impromptu musical program will be rendered during the evening.

Woman's Club Meeting.

An open meeting is being held at the Woman's club house, 608 Kentucky avenue, this afternoon, under the auspices of the music department of the club. Miss Virginia Newell, chairman. An attractive program contrasting old and new ballads is being featured by some of the city's most talented musicians.

A business meeting of the club was held at 2 o'clock to discuss matters of importance.

Local Forestry Committee to Organize.

Mrs. Robert Becker Phillips, who was recently made a member of the forestry department of the Kentucky Federated clubs, by the chairman, Mrs. Mason Maury, of Louisville, has called a meeting for Friday afternoon at 4:30 o'clock with Miss Adine Morton, 612 Broadway, to organize a local forestry committee for civic work under the state federation. Those who will represent the local work are: Mrs. Robert Phillips, of the State Forestry committee, Miss Adine Morton, chairman of civics of Paducah Woman's club; Messrs. John S. Bleeker and Saunders A. Fowler, of the forestry committee of the Paducah Commercial club; Mr. James E. Wilhelm, president of the board of works; Mr. Edwin J. Paxton, of the board of park commissioners; Mr. John A. Carnegie, superintendent of the city schools.

Work to be done by the committee will be discussed and outlined tomorrow at the meeting.

Church Musical.

One of the most interesting musicals given in the city in a long time is promised at the Third Street Methodist church tonight. An excellent and varied program will be given by some of the best talent in the city. Everybody is invited.

Col. and Mrs. J. T. Willingham, of Graves county, celebrated the thirty-seventh anniversary of their wedding on Saturday at their home on the Farmington road, with a notable family reunion. They are fifty-eight years old. Their eight children, four boys and four girls, all of whom are married except one son, and nineteen grandchildren were all present, beside other guests. An elaborate dinner was served, the two long tables extending the length of the dining room. Mr. and Mrs. John E. Willingham, of this city, was present. Mr. Willingham is a son.

Some Features of the State D. A. R. Conference.

Mrs. Eli G. Boone, regent of the Paducah chapter, D. A. R., returned home this morning from Louisville, where she attended the eleventh conference of the Daughters of the American Revolution, Kentucky division, as a delegate from the local chapter. The Pincastle chapter of Louisville were the hostesses at the Country club and the occasion was a most pleasant one, with some delightful social features. The next meeting will be held in Lexington in October, 1908. The conference would have come to Paducah, but owing to the state federation being here in 1908 the Paducah chapter did not think it best to invite it for the same year. The officers were elected as follows:

Vice-President-General—Mrs. Sallie Marshall Hardy, of Louisville, re-elected.

State Regent—Mrs. Christopher D. Chennault, of Lexington, re-elected.

Vice-State Regent—Mrs. James E. Cassidy, of Covington, to succeed Mrs. M. B. Nash, of Paducah, whose time limit had expired.

Secretary—Mrs. W. H. Thompson, of the Bryant station chapter of Lexington, to succeed Miss Margaret Butler, of Paris, who was re-elected and declined.

State Treasurer—Mrs. Wilson H. Escott, of Shelbyville, re-elected.

Mrs. Alexander P. Humphrey, regent of the Pincastle chapter, delivered the address of welcome in a most cordial manner, and it was responded to in a graceful speech by the state regent, Mrs. C. D. Chennault.

Mrs. Humphrey then presented Mrs. Chennault with a large bunch of American Beauty roses, the gift of the Pincastle chapter.

The chief interest of the election centered in the contest between the friends of Mrs. Sallie Marshall Hardy, of Louisville, and Mrs. Cunningham,

of Henderson, for the place of vice-president-general, a national office. The election was very close, Mrs. Hardy winning by three votes.

The report of the Kentucky educational fund was very fine. The chapters educated three mountain girls last year at \$25 a scholarship and increased the number to five for this year.

Much enthusiasm was evinced when the report of the Paducah chapter was made. Mrs. Boone prefaced it by the announcement that the chapter felt very selfish inasmuch as it was doing chiefly local work. When the statement was made that \$1,000 had been raised since January for the D. A. R. memorial fountain the applause was spontaneous and prolonged. Many inquired "what Paducah was made of," as she had already captured high honors in Woman's club work at Shelbyville, and no place elsewhere came up to her.

At the conclusion of the business a delightful banquet was given in the dining-room of the club. Eighty-three guests were seated at small tables, elaborately decorated in American Beauty roses, the candelabrum holding red candles and red and silver shades. The fees were molded to represent liberty bells, miniature George Washingtons and other patriotic emblems. The cakes were in red, white and blue flags and the bon-bons, etc., in red. Welby's orchestra played during dinner, and afterward Miss Virginia Shaffer's singing was greatly enjoyed.

The second day Mrs. Alexander Humphrey, regent of the Pincastle chapter, entertained the delegates and alternates and the Pincastle chapter at luncheon at her beautiful home, which was the old Pincastle club house, and is filled with heirlooms of historic interest. The luncheon was a most elaborate and hand-somely appointed affair.

Mrs. I. O. Walker, who accompanied Mrs. Boone to Louisville, remained for a visit to relatives. Mrs. M. B. Nash, who was an alternate delegate from Paducah chapter, and present by virtue of her state office, will not return until early in November.

Paducah has made a most favorable impression throughout the state in the personnel of her women sent to the state meetings in Shelbyville and Louisville and echoes of it can be heard far and wide.

Capt. Arthur Meaker, commander of the Salvation Army for western Kentucky, left today for Cincinnati to attend a council held by Gen. William Booth this week.

Senator Wheeler Campbell left at noon for Madisonville.

Miss Peary Carneal and little Miss Myrtle Hite and Mr. J. D. Carneal, of Grahamville, left today for Kimbrough to visit relatives.

Piece of Board Was Blown 23 Miles.
Montezuma, Ind., Oct. 17.—A few seconds after the explosion of the powder mill at Fontanet, a piece of pine board almost one foot long, about three inches wide and more than one inch thick, flew through the window of the residence of Mr. and Mrs. Gus Bailey, who live on South Jefferson street. It came with such terrific force that it went through a rambler rose bush by the window through the wire screen and the window glass. One end was jagged and rough, where it had been broken or blown off a longer piece and had several drops of blood on it. The supposition is that the piece of pine was blown here from the Fontanet powder mills, a distance of twenty-three miles.

Too Risky

Ask your doctor if he does not think it would be wise for you to keep a bottle of Ayer's Cherry Pectoral in the house.

"A hard chill, pain through the chest, difficult breathing. If this should be your experience, send for your doctor. It may be pneumonia! To doctor yourself would be too risky. If your doctor cannot come at once, give Ayer's Cherry Pectoral. When he comes, tell him exactly what you have done." J. C. Ayer & Co., Lowell, Mass.

HAD NEVER HIDDEN ON TRAIN.

Trip of Korea's Crown Prince His First Experience.

Seoul, Oct. 17.—The emperor and crown prince of Korea left Seoul for Chemulpo this afternoon to meet the Japanese crown prince who is coming here for a visit. It was the first time the crown prince of Korea had ever ridden on a railroad train and he showed a childlike interest in the proceeding. He was delighted with the speed of the cars and wondered to see smoke pouring from the locomotive. The Japanese crown prince was escorted here. The crown prince of Korea then called on the Japanese prince, who returned the call immediately. Seoul is brilliantly lighted tonight in honor of the distinguished visitors.

Seven Feet of Nails.

A scientist has estimated that in a lifetime of seventy years a man grows nails which, if it were possible to preserve them uncut, would reach the phenomenal length of seven feet nine inches. Exactly on what arguments this statement is based it is hard to say, for a little observation will show that during the greater portion of a

man's life he cuts his nails on an average once a week, and at each paring removes a sixteenth of an inch, or the equivalent of a quarter of an inch per month, working out three inches in a year. This would give him a growth of seven feet six inches during the thirty years he lives between twenty and fifty. In the other forty years, when the growth is less rapid, he would certainly produce four feet of nails, so that eleven feet is a better average for the nail-producing capacity of man. It should be noted, however, that the growth of the nails on the right hand is, in most people, more rapid than those on the left, and it may be that the scientist in question has based his argument on the slower growth of the left-hand nails. Another curious point is that the rate of growth of the nails depends directly on the length of the finger; thus, the nails on the two middle fingers of man grow more rapidly than those on the first and third fingers respectively, and these in turn are more speedy in their growth than those on the little fingers. Again, nails "ripen" quicker in summer than in winter, when the cold seems to render them harder. —Tilt-Bits.

Women Who Wear Well.

It is astonishing how great a change a few years of married life often make in the appearance and disposition of many women. The freshness, the charm, the brilliance vanish like the bloom from a flower which is rudely handled. The matron is only a dim shadow, a faint echo of the charming maiden. Few young women appreciate the shock of the system through the change which comes with marriage and motherhood. Many neglect to deal with the unpleasant pelvic drains and weaknesses which too often come with marriage and motherhood, not understanding that this secret drain is robbing the cheek of its freshness and the form of its fairness.

As surely as the general health suffers when there is derangement of the health of the delicate womanly organs, so surely when these organs are established in health the face and form at once witness to the fact in renewed comeliness. More than a million women have found health and happiness in the use of Dr. Pierce's Favorite Prescription. It makes weak women strong and sick women well. Ingredients on label—contains no alcohol or harmful habit-forming drugs. It is made wholly of those native, American, medicinal roots most highly recommended by leading medical authorities of all the several schools of practice for the cure of woman's peculiar ailments.

For nursing mothers, or for those broken-down in health by too frequent bearing of children, also for the expectant mothers, to prepare the system for the coming of baby and make its advent easy and almost painless, there is no medicine quite so good as "Favorite Prescription." It can do no harm in any condition of the system. It is a most potent invigorating tonic and strengthening nerve, nicely adapted to woman's delicate system by a physician of large experience in the treatment of woman's peculiar ailments.

Bad Symptoms. The woman who has periodical headaches, backache, sees imaginary dark spots or specks floating or dancing before her eyes, has gnawing distress or heavy full feeling in stomach, faint spells, dragging-down feeling in lower abdominal or pelvic region, easily startled or excited, irregular or painful periods, with or without pelvic catarrh, is suffering from weaknesses and derangements that should have early attention. Not all of above symptoms are likely to be present in any case at one time.

Neglected or badly treated and such cases often run into maladies which demand the surgeon's knife if they do not result fatally.

No medicine extant has such a long and numerous record of cures in such cases as Dr. Pierce's Favorite Prescription. No medicine has such a strong professional indorsement of each of its several ingredients—worth more than any number of ordinary non-professional testimonials. The very best ingredients known to medical science for the cure of woman's peculiar ailments are included in its composition. No alcohol,

harmful, or habit-forming drug is to be found in the list of its ingredients printed on each bottle-wrapper and attested under oath as complete and correct. In any condition of the female system Dr. Pierce's Favorite Prescription can do only good—never harm. Its whole effect is to strengthen, invigorate and regulate the whole female system and especially the pelvic organs. When these are deranged in function or affected by disease, the stomach and other organs of digestion become sympathetically deranged, the nerves are weakened, and a long list of bad, unpleasant symptoms follow. Too much must not be expected of the "Favorite Prescription." It will not perform miracles; it will not cure tumors—no medicine will. It will often prevent them, if taken in time, and thus the operating knife and the surgeon's knife may be avoided.

Doctor's All Agree. The most eminent writers on *Materia Medica*, whose works are consulted as authorities by physicians of all the different schools of practice, extol, in the most positive terms, the curative virtues of each and every ingredient entering into Dr. Pierce's Golden Medical Discovery. In fact it is the only medicine, put up for sale through druggists for the cure of all diseases of the mucous surfaces, as nasal catarrh, throat, laryngeal, and bronchial affections attended by lingering, or hang-on-coughs that has any such professional endorsement—worth more than any amount of lay or non-professional testimonials.

Do not expect too much from the use of Dr. Pierce's Golden Medical Discovery. It will not work miracles. It will not cure consumption in its advanced stages. No medicine will. Nor is the "Discovery" so good for a sudden attack of acute cough, but for the lingering, obstinate, hang-on-coughs, accompanying catarrhal, throat, laryngeal and bronchial affections, it is a most efficacious remedy. In cases accompanied with wasting of flesh, night-sweats, weak stomach and poor digestion with faulty assimilation, and which, if neglected or badly treated are apt to lead to consumption, the "Discovery" has proven wonderfully successful in effecting cures.

The formula is printed on every wrapper of "Golden Medical Discovery," attested as to correctness under oath, and you can't afford to accept any substitute of unknown composition for this non-secret remedy no matter what selfish interests may prompt the dealer to urge such upon you. In fact it is an insult to your intelligence for him to do so. You know what you want and it is his place to supply that want.

Dr. Pierce's Pleasant Pellets are the original "Little Liver Pills" first put up by old Dr. Pierce over 40 years ago. Much imitated, but never equaled. They cleanse, invigorate and regulate stomach, liver and bowels, curing biliousness and constipation. Little sugar-coated granules—easy to take as candy.

Dr. Pierce may be consulted by letter free of charge. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's Medical Adviser (1000 pages) is sent free on receipt of 21 one-cent stamps for paper-covered, or 31 one-cent stamps for cloth-bound copy. Address Dr. Pierce as above.

HOUSE PAY ROLL

STUFFED, SAY THE LEGISLATIVE VOTERS' LEAGUE OF CHICAGO.

Address Letter to Speaker Shurtliff, of General Assembly, on the Subject.

Chicago, Oct. 17.—The Legislative Voters' League of this city has addressed an open letter to Honorable Edward D. Shurtliff, speaker of the Illinois house of representatives, calling his attention to the "stuffing" of the house pay roll. According to the letter the number of employees authorized by law is 41, whereas the number employed was 121 at the beginning of the 1907 session. "Many political barnacles," the letter says, "who rendered no equivalent service for the pay were permitted to hold their places." Out of ten stenographers authorized, only five could write shorthand, and only two of the five could operate a typewriter, while one was a common laborer. In cases where employees were authorized at \$4 per day the number was increased by reducing the pay to \$3.

ST. JOHN CASE DISMISSED.

Nevada Attorney Says State is Unable to Secure Evidence.

Goldfield, Nev., Oct. 17.—Upon motion of the district attorney, Judge Langan yesterday dismissed the cases against Vincent St. John and other members of the Western Federation of Miners, accused of conspiracy to murder Silver, the restaurant keeper.

Two men, Preston and Smith, are now serving five and ten year terms, respectively, in the penitentiary for murder. The district attorney said in making his motion to dismiss that some of the witnesses were out of the state and the state could not hope to convict on the evidence at hand. St. John has been out on bail.

TRAVEL 100 MILES IN BALLOON

Americans Who Will Enter International Race Make Test Trip.

St. Louis, Oct. 17.—After traveling through the air a distance of almost 100 miles in three hours and ten minutes, J. C. McCoy and Captain C. DeF. Chandler, of the United States signal corps, brought the balloon "Psyche" to earth three miles north of Jacksonville, Ill., late this afternoon, ending the first trial trip taken by the aeronauts, who are to contest in the international races to be held here October 21. By tomorrow night it is expected all the contestants will have arrived. Alfred Le Blanc, pilot, and E. W. Mix, companion, who will handle one of the French entries, arrived tonight, as did two German teams.

Stir in Illinois K. of P. Moline, Ill., Oct. 17.—Upwards of 1,200 delegates are in attendance at the thirty-eighth annual state convention of the Knights of Pythias grand lodge, which will be in session three days. C. E. Chamberlain, of Belleville, caused a surprise when he announced his candidacy for grand outer guard. It had been conceded that Joseph M. Omo, of Chicago, would get the office. F. C. Smith, of East St. Louis, is a candidate for supreme representative.

It was announced that the contract for the erection of the Pythian old home at Decatur was let to the Graf C. Derr Construction company of La Crosse for \$117,000.

Grand lodge officers' reports showed the total membership of the state to be \$58,332, a gain of 1,000, and the assets amounted to \$1,001,360.

TELLS HOW TO MIX IT.

Direction to Prepare Simple, Yet Remarkable, Home Mixture. A well-known authority on Rheumatism gives the following valuable yet simple and harmless prescription, which any one can easily prepare at home:

Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces.

Mix by shaking well in a bottle, and take a teaspoonful after each meal and at bedtime.

He states that the ingredients can be obtained from any good prescription pharmacy at small cost, and, being of vegetable extraction, are harmless to take. This pleasant mixture, if taken regularly for a few days, is said to overcome almost any case of Rheumatism. The pain and swelling, if any, diminishes with each dose, until permanent results are obtained, and without injuring the stomach. While there are so many so-called Rheumatism remedies, patent medicines, etc., some of which do give relief, few really give permanent results, and the above will, no doubt, be greatly appreciated by many sufferers here at this time.

FALSE RUMOR

FAKE STORY OF MOB IN CITY OF SAN FRANCISCO.

Tokio Receives Dispatches But Foreign Offices Has No Such Information.

Tokio, Oct. 17.—A special dispatch made public here at a late hour tonight gives a sensational account of an attack on the Japanese by a mob at San Francisco and relates the destruction of Japanese property and the fatal injuring of one Japanese. The foreign office has no information giving the details of this occurrence, and is not inclined to express an opinion thereon. But one official said tonight that if the facts are as published it is only another evidence of the action of irresponsible persons who do not represent the real sentiment of America. This affair is regarded as particularly unfortunate, however, on account of the splendid reception accorded by officials and merchants of Japan to Messrs. Burke and Backus, delegates from the Seattle exposition.

Prominent Colored Man Dies.

News reached the city yesterday of the death of Prof. Charles Steele, grand master of the colored Masons of Kentucky, at Georgetown. He had suffered for more than a year from Bright's disease. Prof. Steele was one of the most prominent colored men of the state. He was also a prominent colored Odd Fellow, having filled the office of grand master in that fraternity for two years. For 25 years he was principal of the colored High school at Georgetown.

MUST SPEW THEM OUT

William Jennings Bryan said in a recent speech:

"The honesty of the party's purpose is shown not merely by the platform or the speeches of its candidates and supporters, but by the character of the men who are entrusted with the party management. And if the Democratic party has not virtue enough to spew out those who traffic in politics, it does not deserve victory nor can it hope for it."

Bryan says those who traffic in politics must be spewed out, and that the good faith of the party must be shown by the character of the candidates.

Hager is a fully developed machine politician, a trafficker in politics, who has shown that he regards public office as a private graft.—Henderson Gleason (Dem.)

The state machine used the machinery of the party and the public patronage in such a way as to defeat Blackburn. It remains to be seen whether the party machinery and the patronage trough can be employed to defeat the will of the people this fall.—Henderson Gleason (Dem.)

The work of dismantling the machinery of the Dick Fowler continues and the boat will soon be ready to be hauled out onto the ways for more extensive repairs.

BEAR GETS AWAY

BRUIN ESCAPES HUNTING DOGS IN LOUISIANA BRACKS.

President Was Stationed a Little Too Far Away From Quarry and Failed.

Stamboul, La., Oct. 17.—If President Roosevelt had been stationed a few hundred feet further south than he was yesterday he would possibly have procured the bear he came to the Louisiana cane brakes to slay. Four dogs unattended by any of the hunters, after trailing the brakes unavailingly all day, struck a hot trail about 4 o'clock and within a trice they were almost on the animal. He was aroused while feeding and with a snort that was heard afar he darted off in a direction opposite the president's post. Campers say that thick as was the jungle, bruin made rapid headway through it for a short distance he had to run to reach the lake. Arriving at the water's edge he unhesitatingly plunged in and was well away from the shore when the dogs arrived on the scene. Some of the hunters came up a short time afterward but too late to get a shot.

Death For Heretics, Says Good Old Doctor---Revival of Middle Ages

Philadelphia, Pa., Oct. 17.—The Dr. Robert M. Patterson, a minister of the Presbyterian church, who is well known in Albany, Chicago and Philadelphia, and who has lived in Matvers, a suburb of this city, since his retirement from the ministry several years ago, caused an uproar in the Presbytery that met here today by declaring that the death penalty should be inflicted upon all heretics, blasphemers and correspondents in all divorce cases.

Persons who sought out affinities should be harshly dealt with by law, said Dr. Patterson, and the death penalty should be established as the punishment for attacks on women.

Dr. Patterson had been scheduled on the program of the Presbytery for a speech on John Calvin.

Wants Death for Many.

The first thing he said when he got up to speak was:

"If I had my way about it I would have an executioner called in to deal with all heretics and blasphemers. Burning at the stake would be too good for those who revile religion and take the Lord's name in vain. The growth of heresy is such today that nothing but measures like this can stop it."

"I would requisition the services of the executioner also for those despicable persons who make divorces necessary by their insidious machinations between husband and wife."

"And for those who, under the guise of an artistic temperament or uncontrollable fascination, take unto themselves affinities, forsaking their lawful wives, I would have the law recommend harsh punishment. Execution also should be the punishment for attacks on women."

When Dr. Patterson had finished speaking the Rev. Dr. John Wheaton, the pastor of Mizpah Presbyterian church of Philadelphia, rose to declare that such pronouncements were too radical for expression in the present day.

Near Clash Over Views.

The Rev. R. C. McCook, formerly pastor of the Presbyterian tabernacle, got to his feet with some heat and declared that instead of being radical, Dr. Patterson was ultra-conservative. He had harke dback to the thought of the middle ages, said Dr. McCook, and his ideals were those of the inquisitors in Spain and the anti-papal religionists of Germany.

"There is no man in the Presbyterian church like Dr. Patterson today," I hope," said Dr. McCook in conclusion. This roused Dr. Patterson's ire and he started to make a spirited reply. Others tried to speak at the same time, and the meeting was in an uproar. The moderator presiding pounded for order and announced that to preserve the peace of the meeting further discussion on Dr. Patterson's speech would not be allowed.

ARMY OF CUMBERLAND.

Meet in Annual Session at Chattanooga—Thinning Ranks.

Chattanooga, Tenn., Oct. 17.—A small though dignified body of several hundred men filled the prettily decorated assembly hall of the Road House today at the opening of the annual reunion of the Society of the Army of the Cumberland. Death had since the last meeting, removed several prominent members of the society.

Gen. Gate P. Thurston, of Nashville, called the gathering to order and presided over the opening session, which was devoted to an exchange of greetings and the reading of the annual reports. This evening the annual oration will be delivered by Col. M. B. Fitch, of Pueblo, Col., who was an inspector-general and fought at Chickamauga. The reunion will continue over tomorrow.

FONTANET IS BURYING ITS VICTIMS THIS DAY.

Fontanet, Ind., Oct. 17.—Vice President Dupont, of the Dupont Powder company, arrived today, and after seeing that the work of making the residents comfortable was well under way, at once began an investigation of the cause of the disaster. Gov. Haley left town last night and probably will order another company of militia to Fontanet, to remain as necessary. Today the saddened town is burying its dead. Funerals were held in tents this morning as early as daylight.

SCHOOL NEWS

This morning Mrs. George B. Hart entertained the High school with rendition of several piano numbers.

In order to increase interest among parents in school work, Supt. John A. Carnegie will contribute to The Sun articles bearing on school work. Each Monday an article, bearing on the subject of English in city schools. He will treat the matter in its many forms, and believes that parents will

become interested in the work and assist their children in this study at home.

Tomorrow morning the High school orchestra will play several numbers as a feature of the morning opening. It will be the first appearance of the orchestra this season, and hereafter semi-monthly concerts will be featured.

Miss Mamie Noble, who had been out of school two days on account of illness, resumed her duties this morning at Washington school.

Miss May Ellis, of the Franklin school, is ill today and Miss Clara Winston is acting as a substitute. Miss Winston is a member of the cadet class.

Balloon Races Postponed.

St. Louis, Oct. 17.—The weather conditions interfered with the plans of the two ballooning ships here to compete in the international cup races Monday and the trial ascents planned for today were postponed. Messrs. Gasnier and Leve, representing France, arrived today, leaving Paul Meckle, of the third German team, and Major H. B. Hersey, who will pilot the United States, the only pilots yet to come. Every balloon is being carefully guarded to make sure that there will be no repetition of the Santos Dumont affair, when the Brazilian's airship envelope was ripped before the races at the world's fair. It was learned that arrangements have been made by aero clubs of St. Louis and New York to patrol the shores of the Great Lakes Monday night when it is feared some of the aeronauts may drift over the lakes and be unable to cross.

Broke World's Auto Record.

Birmingham, Oct. 17.—Christie Strang, a nephew of Walter Christie, lowered the world's record of one mile in an automobile for circular track, here today, by covering the distance in 51 3-5 seconds. The previous record was held by the elder Christie, who went it in 52 seconds at Minneapolis, September 10.

HARRY E. PIXLER

WELL KNOWN LOCOMOTIVE ENGINEER IS DEAD.

For Many Years He Lived in Paducah and Funeral Will Be Here.

Mr. Harry P. Pixler, 40 years old, for years a resident of Paducah, died at 1:10 o'clock this morning at Perryville, Tenn., of stomach trouble after an illness of many weeks. News of his death will be received with much regret by his many Paducah friends.

He was an engineer on the Lexington and Perryville branch of the N. C. & St. L., and for 15 years ran out of Paducah. A little more than a year ago he was assigned to the Perryville branch, and had been running out of that city since. He was married and leaves a wife and three children. This morning Mr. and Mrs. Albert Berger, of South Eleventh street, left for Perryville to bring the body to Paducah for burial. No funeral arrangements will be made until the body reaches here, which will be at 8:10 o'clock tonight.

Thomas Ashby.

Thomas Ashby, 54 years old, a farmer, died this morning at 5 o'clock of a complication of diseases after an illness of several weeks. He came here from the county about one year ago and resided at 820 North Sixth street. He was married and leaves a wife and several children. The funeral will be conducted tomorrow morning at the residence. The burial will be in Oak Grove cemetery.
